Keel	Flat
No. Berths	4

## History of Vessel / Maintenance

Boat Safety Certificate	N/A
Recent Survey	N/A
Latest Hull blacking	Not seen launch in 2017
Anodes	2017

## Boat Description

Starting at the stern moving into the boat you will immediately find cupboard storage, either side of stern entry steps. Port side cupboard giving you storage outdoor clothes and includes a large empty storage space below. Starboard side the cupboard houses the electrical management system. Below, again, empty storage space.

The Galley has been designed for everyday practical requirements, with plentiful drawer storage, for utensils and cutlery. Also pan storage housed in the access steps. The galley also includes 12v Shoreline Fridge and ice box, large sink/large drainer surrounded by easy clean surfaces and splash back. The cooker is a Wallas 87D diesel stove with small oven and Hob top. This stove negates the need for LPG onboard.

Moving to the saloon area which includes 2 x very comfortable single pullman style dinettes providing seating for 4 and easily converted into 2 single berths or sofas. Underneath both sides there are two large soft close drawers, with a more shallow drawer above.

Just the other side of the saloon there is a 6ft square space which was originally used for reclining chairs but currently left empty. This space can be made your own used for seating, storage for bikes or whatever your needs.

The W/C and shower are in separate rooms on the port side. The W/C comprises an Airhead composting toilet, with full electrical mixer and extractor fan giving long periods without the need to empty. The W/C also includes a ceramic washbasin with vanity unit.

In the next room is the shower, which has pumped hot and cold supply with good forced shower head. Towel racks, and small changing space inside the door.

At the bow end of the boat you will find the bedroom with a fixed double bed. Underneath the bed are three large drawers, each divided into front and back spaces.

There is also large storage space behind the drawers for the bits you need only occasionally. The TV screen has been mounted at the foot of the bed, with speakers overhead. At the foot of the bed is a wardrobe, top shelf, hanger storage, and below, a water pump hose in a custom box, hanging at the rear.

## Engine Specification

Engine Make	Beta Marine 38
Engine Hours	350
Bow Thruster	No
Diesel Tank Capacity	175 litres
